

Washington State Inpatient Detox Centers

Alphabetical by City

<p>Agency/Program Information</p> <p>Click on the agency name to be directed to the agency's website</p>	<p>Location</p>	<p>Payment and Insurance</p>
<p><u>Harborcrest Behavioral Health</u> 360-537-6258 <i>(Pregnant women)</i></p> <p>Program provides acute medical withdrawal management services designed to support individuals undergoing detoxification.</p> <p>The typical duration for detox is 3 to 4 days, followed by an additional 6 to 7 days for stabilization. For patients using opiates, it extends to about 14 days (about 2 weeks). Individuals using high doses of methadone should anticipate a longer detoxification period. The program employs Suboxone as part of the opiate detoxification protocol. Smoking is permitted during designated outdoor breaks but is prohibited on hospital property. Furthermore, the program maintains contractual agreements with most Native American tribes within the state to extend its services to their communities.</p>	<p>1006 North H Street Aberdeen WA 98520</p>	<p>WA Apple Health, Medicare Private insurance</p>
